

NEW!

Nail-on, Flanged Vapor Box for Devices

Prevents Air Infiltration in New Construction

FN101FL
Vapor Box
for devices

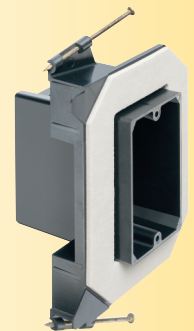

Arlington's new non-conductive Vapor Box **nails** to a stud in new construction.

Easy to install, *this box* has gaskets that form a protective barrier that **prevents air infiltration inside** – to meet International Energy Conservation Codes (IECC) and other codes *where required*.

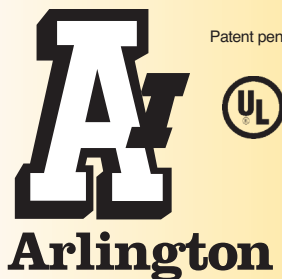

For added convenience, the nails ship captive and the installed NM cable connectors and flange have the gasket material attached – there's *no assembly required!*

Plus, the **built-in gasketed flange** has **ultra-thin alignment tabs** so there's **NO DRYWALL BULGE**.

- 22.8 cubic inch non-metallic box for single 1/2" or 5/8" drywall
- UL Listed, UV rated
- **2-Hour Fire Rating**
