RG6-127 Series

RG6-Series Coaxial Drop Cable

- ◆ UL Rated (RG6-127U) E197429CM, CATV, CL2
- ◆ 100% Sweep Tested to 2200 MHz
- ◆ 25 dB minimum return loss (5~1000 MHz)
- ◆ Strength and durability provided by AWG18 copper clad steel conductor
- ◆ 4.57mm nominal OD foam-PE Dielectric
- ◆ Foil Inner-Shield bonded to the dielectric and stranded Aluminum 60% braid
- ◆ 1.3mm Steel messenger to provide cable span stress relief
- ◆ 6.93mm black PVC jacket with UV inhibitor
- ◆ Easy cable preparation

Center Conductor	1.02mm OD Copper Clad Steel	Characteristic Impedance	75Ω
Dielectric	4.57mm OD Foamed PE	DC Loop Resistance	20Ω/1000ft
Braid	Stranded Aluminum 60%	SRL Min 5~1000 MHz	25 dB
Jacket	6.93mm PVC	SRL Min 1001~2250 MHz	20 dB
Messenger	1.3mm OD Steel		

Ordering Information

- RG6-127** RG-6 Coaxial Drop Cable
- RG6-127U** RG-6 Coaxial Drop Cable (UL Listing)
- RG6-127M** RG-6 Coaxial Drop Cable (w/ Messenger)
- RG6-127MU** RG-6 Coaxial Drop Cable (w/ Messenger) (UL Listing)

RG11-127 Series

RG11-Series Coaxial Distribution Cable

- ◆ 100% Sweep Tested to 2200 MHz
- ◆ 20 dB minimum return loss (5~1000 MHz)
- ◆ Strength and durability provided by 1.63mm copper clad steel conductor
- ◆ 7.11mm nominal OD foam-PE Dielectric
- ◆ Foil Inner-Shield bonded to the dielectric and stranded Aluminum 60% braid
- ◆ 1.83mm Steel messenger to provide cable span stress relief
- ◆ 10.03mm nom black PVC jacket
- ◆ Easy cable preparation
- ◆ UL Rated CM, CL2, CATV

Center Conductor	1.63mm OD Copper Clad Steel	Characteristic Impedance	75Ω
Dielectric	7.11mm OD Foamed PE	DC Loop Resistance	11Ω/1000ft
Braid	Stranded Aluminum 60%	SRL Min 5~1000 MHz	20 dB
Jacket	10.03mm PVC	SRL Min 1001~2250 MHz	15 dB
Messenger	1.83mm OD Steel		

Ordering Information

- RG11-127** RG-11 Coaxial Distribution Cable
- RG11-127U** RG-11 Coaxial Distribution Cable (UL Compliant)
- RG11-127M** RG-11 Coaxial Distribution Cable (w/ Messenger)
- RG11-127MU** RG-11 Coaxial Distribution Cable (w/ Messenger) (UL Compliant)

RG6 Series

RG-6 Series Coaxial Drop Cable

- ◆ Precision Digital Cable 100% Sweep Tested to 2200 MHz
- ◆ Strength and durability provided by AWG18 solid copper center conductor
- ◆ 0.193" nominal OD CPE Dielectric for consistent impedance characteristics, minimizing micro-reflections that cause distortions and thus reducing data bit errors
- ◆ Aluminum Braid and 100% Foil Inner-Shield provide excellent EMI shielding, eliminating signal ingress and guaranteeing distortion free pictures
- ◆ Available with galvanized steel messenger to provide cable span stress relief, preserving electrical integrity and increasing lifespan
- ◆ 0.275" nom OD black PVC jacket provides protective shielding from harmful moisture and elements
- ◆ Easy cable preparation; dielectric strips away clean from center conductor without scraping other cables require
- ◆ Meets NEC article 820-V-rating min

Center Conductor	1.02mm OD Copper Clad Steel	Characteristic Impedance	75Ω
Dielectric	4.57mm OD Foamed PE	DC Loop Resistance	20Ω/1000ft
Braid	Stranded Aluminum 60%	SRL Min 5~1000 MHz	25 dB
Jacket	6.93mm PVC	SRL Min 1001~2250 MHz	20 dB
Messenger	1.3mm OD Steel

JRR Series

Single-Molded RCA Patch Cables

- ◆ Single RCA to RCA Plug Patch Cables provide quick connections
- ◆ Stranded Copper Center Conductor provides increased signal transfer
- ◆ Spiral-Wound Copper Shield protects signals from harmful interference
- ◆ Flexible Outer Jacket for neat dressing of cabling
- ◆ Fully Molded Construction improves strength at cable connector interface
- ◆ Nickel Plating provides solid outer shield conduction

Center Conductor	AWG22
Shielding	95% Copper
Outer Jacket	PVC
Connector Type	Molded RCA

Ordering Information

JRR-1	12" RCA patch cable
JRR-2	24" RCA patch cable
JRR-3	36" RCA patch cable
JRR-6	72" RCA patch cable

JRR-D Series

Dual-Molded RCA Patch Cables

- ◆ Dual cable with RCA plugs optimally designed for stereo audio applications
- ◆ Stranded Copper Center Conductor provides increased signal transfer
- ◆ Spiral-Wound Copper Shield protects signals from harmful interference
- ◆ Flexible Outer Jacket for neat dressing of cabling
- ◆ Fully Molded Construction improves strength at cable connector interface
- ◆ Nickel or Gold Connector Plating provides solid outer shield conduction

Center Conductor	AWG22
Shielding	95% Copper
Outer Jacket	PVC
Connector Type	Molded RCA

Ordering Information

JRR-1D	12" Dual RCA patch cable	JRR-6D	72" Dual RCA patch cable
JRR-1.5D	18" Dual RCA patch cable	JRR-12D	144" Dual RCA patch cable
JRR-3D	36" Dual RCA patch cable	JRR-12DG	144" Dual Gold RCA patch cable
JRR-3DG	36" Dual Gold RCA patch cable		

JRR-T Series

Triple-Molded RCA Patch Cables

- ◆ Triple patch cables with RCA plugs
- ◆ Ideally suited for use in applications with video and stereo audio connections
- ◆ Low-Loss RG59 coaxial cable perfect for video applications
- ◆ Stranded Copper Center Conductor provide increased audio signal transfer
- ◆ Spiral-Wound Copper Shield protects signals from harmful interference
- ◆ Flexible Outer Jacket for neat dressing of cabling
- ◆ Fully Molded Construction improves strength at cable connector interface
- ◆ Nickel or Gold Connector Plating provides solid outer shield conduction

Video Cable	75Ω
Center Conductor	AWG22 copper clad steel
Shielding	100% aluminum foil
Braid	40% Tinned-Copper
Audio Cable	600Ω

Center Conductor	AWG22 Stranded Copper
Shielding	95% Copper
Connector Type	Molded RCA

JRR-6TG	72" Triple Gold RCA patch cable		
JRR-12T	144" Triple RCA patch cable		

JRR-6F

Single-Molded F Patch Cable

- ◆ RF patch cable with "F" connectors
- ◆ Ideally suited for use in applications with video or RF signals
- ◆ Low-Loss RG59 coaxial cable perfect for video applications
- ◆ Solid Copper-Clad Center Conductor provides increased audio signal transfer
- ◆ Spiral-Wound Copper Shield protects signals from harmful interference
- ◆ Flexible Outer Jacket for neat dressing of cabling
- ◆ Fully Molded Construction improves strength at cable connector interface
- ◆ Nickel Plating provides solid outer shield conduction

Impedance	75Ω
Center Conductor	AWG22 copper clad steel
Shielding	100% aluminum foil
Braid	40% Tinned-Copper
Connector Type	Molded F-type

JRG Series

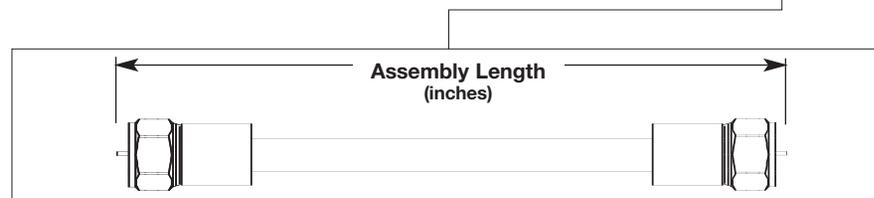

Custom Pre-Assembled Coaxial Cable Jumpers

- ◆ Pico Macom's highly experienced staff provides professional value-added design assistance to custom configure cable assemblies for specific applications
- ◆ Save valuable time and money—Preconnectorized cable jumper assemblies provide convenience and significant onsite labor cost reduction—We supply the most competitive pricing in the industry
- ◆ Highly efficient manufacturing facilities with production capacity of 3 million jumpers per month
- ◆ Used in broadband coaxial network applications such as CATV, satellite and high-speed Internet
- ◆ Custom lengths provide quick connections between terminal and drop devices such as digital converters, cable modems, splitters, ground blocks, traps and NIDs
- ◆ Wide variety of coaxial cable options available in different colors, 60-75% braids, Tri-Shield or Quad Shield Cable from CommScope, Times Fiber, Belden or cost-effective high-grade offshore cable
- ◆ Terminated with high-grade compression or hex-crimped F connectors including Digicon, Gilbert, PPC, LRC, T&B Snap-n-Seal or Steren's PermaSeal-II™
- ◆ Specialty assemblies available, connectorized with BNC, RCA, UHF, N, SMA or Motorola types
- ◆ Each jumper 100% fully factory tested to ensure high reliability and performance
- ◆ Available in bulk or individual custom labeled packing
- ◆ Value-added capabilities also include design, custom set-top-box kitting and packaging
- ◆ Designed to exceed NEC and UL specifications

GRB-HRL Series

3 GHz Grounding Components

- ◆ Embedded TruSpec F-81HRL splices for superb digital-ready broadband performance to 3 GHz
- ◆ Gold-plated round seizing pins maximize center conductor surface contact
- ◆ Flat-ended ports on both ends maximize connector-to-shield surface contact
- ◆ Impressive return loss up to 3 GHz
- ◆ Low insertion loss provides unsurpassed performance
- ◆ Zinc-alloy housing ensures long corrosion-free service
- ◆ Precision machined threads ensure maximum connectivity
- ◆ High 8-Ampere DC continuous current handling capacity
- ◆ Mounting tabs with convenient 3-way mounting screws (Slotted, Hex, Phillips) enables easy and cost-effective installations
- ◆ GRB-2HRL and GRB-2HRL/3G3 provide multiple ground-wire connections

Bandwidth	DC-3 GHz	Return Loss	30 dB
Contact Plating	24K Gold	Impedance	75Ω
Barrel Material	Brass	Ground Receptacle	AWG8
Barrel Plating	Nickel	Body	Zinc alloy

Ordering Information

GRB-1HRL	Single path 3 GHz ground block (1 ground)
GRB-2HRL	Dual path 3 GHz ground block (2 ground)
GRB-2HRL/3G3	Dual path 3 GHz ground block (3 ground)

GRB-HRL/2G Series

2 GHz Grounding Components

- ◆ Embedded TruSpec F-81HRL2G splices for digital-ready broadband performance to 2.2 GHz
- ◆ Rounded seizing mechanism provides increased center conductor surface contact
- ◆ Flat-ended ports on both ends maximize connector-to-shield surface-contact
- ◆ Excellent return loss performance to 2.2 GHz
- ◆ Zinc-alloy housing ensures long corrosion-free service
- ◆ Precision machined threads ensure maximum connectivity
- ◆ Mounting tabs with convenient 3-way mounting screws (Slotted, Hex, Phillips) enables easy and cost-effective installations

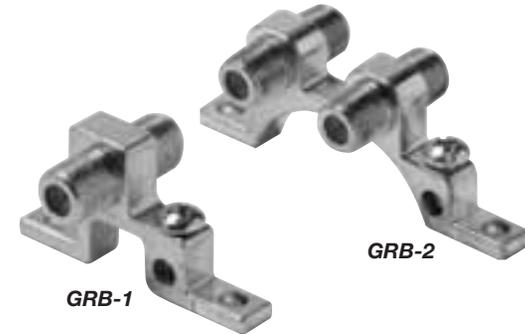

Bandwidth	DC-2.2 GHz	Impedance	75Ω
Contact Plating	Gold	Ground Receptacle	AWG8
Return Loss	24 dB	Body	Zinc alloy

Ordering Information

GRB-2HRL/2G	Dual path 2.2 GHz ground block (2 ground)
GRB-1HRL/2G	Single path 2.2 GHz ground block (1 ground)

GRB Series

1 GHz Grounding Components

- ◆ Cast F-81 splices for broadband performance to 1 GHz
- ◆ Blade-type center pin receptor for consistent performance
- ◆ Flat-ended ports on both ends maximize connector-to-shield surface-contact
- ◆ High return loss performance to 1 GHz
- ◆ Zinc-alloy housing ensures long corrosion-free service
- ◆ Precision machined threads ensure maximum connectivity
- ◆ Mounting tabs with convenient 3-way mounting screws (Slotted, Hex, Phillips) enables easy and cost-effective installations

Bandwidth	DC-1 GHz	Impedance	75Ω
Contact Plating	Silver	Ground Receptacle	AWG8
Return Loss	18 dB	Body	Diecast zinc alloy

Ordering Information

GRB-2	Dual path 1 GHz ground block (1 ground)
GRB-1	Single path 1 GHz ground block (1 ground)

TSI-2400

Coaxial Voltage Isolator

- ◆ Isolates Modem/Receiver/TV/VCR equipment from voltage surges
- ◆ Easy in-line insertion on cable drop
- ◆ Eliminates ground loops/hum bars
- ◆ Fast response protects in fractions of a second
- ◆ Reduces cable line electrical noise, increasing modem performance
- ◆ Low insertion loss

Bandwidth	5~1000 MHz
Isolation Protection	6,000 volts
Response Time	1 ps
Insertion Loss	<1.5 dB
Impedance	75Ω

TSS-2400

Coaxial Surge Protector

- ◆ Protects Modem/Receiver/TV/VCR equipment from power current surges
- ◆ Easy in-line insertion on cable drop
- ◆ Low clamping voltage ensures protection from wide frequency range of surges
- ◆ Self-resetting circuit ensures continued protection
- ◆ Low insertion loss

Bandwidth	5~2400 MHz
Resistive Protection	10000 MΩ
Surge Capacity	5000 amp
Response Time	100 ns
Insertion Loss	<2.0 dB
Impedance	75Ω

TSHC-500P Series

Pin Connectors

- ◆ Hardline cable to port entry connectors provide solid interface while preserving impedance characteristics
- ◆ Wide bandwidth for use in broadband systems
- ◆ Center pin "Funnel guide" reduces installation time and connector mating guesswork
- ◆ Standard pin length accommodates all amplifier and multitap mating requirements
- ◆ Notched center conductor cutting guide assures accurate cable center conductor length
- ◆ High return loss for excellent digital signal performance
- ◆ Solid construction and integral sleeve provides optimum RF shielding
- ◆ High retention center conductor seizure mechanism
- ◆ Superior power capability provides a minimum of 20 Amps current capacity on all connectors and adapters
- ◆ No-twist center conductor seizing mechanism eliminates radial stress, ensuring consistent application without cable damage
- ◆ O-ring sealed for maximum environmental protection, eliminating water migration

Bandwidth	DC~1 GHz	Return Loss	30 dB
Insertion Loss	<0.3 dB	Power Capacity	>20A
Impedance	75Ω	Connector Type	5/8 (KS)

Ordering Information

TSHC-500P .500 Pin Connector
TSHC-750P .750 Pin Connector

TSHC-500S Series

Splice Connectors

- ◆ Hardline cable to cable splice connectors designed to extend like-size cables
- ◆ Wide bandwidth for use in broadband systems
- ◆ Center pin "Funnel guide" reduces installation time and connector mating guesswork
- ◆ Notched center conductor cutting guide assures accurate cable center conductor length
- ◆ Solid construction and integral sleeve provides optimum RF shielding
- ◆ High retention center conductor seizure mechanism
- ◆ Superior power capability provides a minimum of 20 Amps current capacity on all connectors and adapters
- ◆ No-twist center conductor seizing mechanism eliminates radial stress, ensuring consistent application without cable damage
- ◆ O-ring sealed for maximum environmental protection, eliminating water migration

Bandwidth	DC~1 GHz	Return Loss	30 dB
Insertion Loss	<0.3 dB	Power Capacity	>20A
Impedance	75Ω	Connector Type	5/8 (KS)

Ordering Information

TSHC-500S .500 Splice Connector
TSHC-750S .750 Splice Connector

TSHC-11FT Series

Feed-Through Connectors

TSHC-11FTD

TSHC-11FT

- ◆ RG11 cable to port entry connectors provide solid interface while preserving impedance characteristics
- ◆ Wide bandwidth for use in broadband systems
- ◆ Feed-Thru center conductor reduces mating connections for better signal transfer
- ◆ Solid construction and integral sleeve provides optimum RF shielding
- ◆ Superior power capability provides a minimum of 20 Amps current capacity on all connectors and adapters
- ◆ O-ring sealed for maximum environmental protection, eliminating water migration

Bandwidth	DC~1 GHz	Return Loss	30 dB
Insertion Loss	<0.3 dB	Power Capacity	>20A
Impedance	75Ω	Connector Type	5/8 (KS)

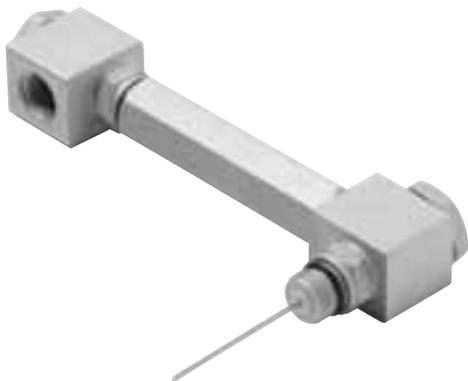

Ordering Information

TSHC-11FT RG11 Feed-Thru Connector
TSHC-11FTD RG11 Feed-Thru Connector (Diecast)

TSHC-180-3

180-Degree Adapter

- ◆ 180 degree adapters are the perfect accessory for use to manage splicing configurations in tight areas
- ◆ Wide bandwidth for use in broadband systems
- ◆ Standard pin length accommodates all amplifier and multitap mating requirements
- ◆ High return loss for excellent digital signal performance
- ◆ Superior power capability provides a minimum of 20 Amps current capacity on all connectors and adapters
- ◆ O-ring sealed for maximum environmental protection, eliminating water migration

Bandwidth	DC~1 GHz
Insertion Loss	<0.3 dB
Impedance	75Ω
Return Loss	30 dB
Power Capacity	>20A
Connector Type	5/8 (KS)

TSHC-90

90-Degree Adapter

- ◆ 90 degree adapters are useful when splicing hardware in pedestals, vaults and lockboxes
- ◆ Wide bandwidth for use in broadband systems
- ◆ Standard pin length accommodates all amplifier and multitap mating requirements
- ◆ High return loss for excellent digital signal performance
- ◆ Superior power capability provides a minimum of 20 Amps current capacity on all connectors and adapters
- ◆ O-ring sealed for maximum environmental protection, eliminating water migration

Bandwidth	DC~1 GHz
Insertion Loss	<0.3 dB
Impedance	75Ω
Return Loss	30 dB
Power Capacity	>20A
Connector Type	5/8 (KS)

TSHC-H-H

Housing to Housing Adapter

- ◆ Housing to housing adapters are ideally suited for applications where two or more pieces of equipment are placed directly next to each other
- ◆ Wide bandwidth for use in broadband systems
- ◆ Standard pin length accommodates all amplifier and multitap mating requirements
- ◆ High return loss for excellent digital signal performance
- ◆ Superior power capability provides a minimum of 20 Amps current capacity on all connectors and adapters
- ◆ O-ring sealed for maximum environmental protection, eliminating water migration

Bandwidth	DC~1 GHz
Insertion Loss	<0.3 dB
Impedance	75Ω
Return Loss	30 dB
Power Capacity	>20A
Connector Type	5/8 (KS)

TSHC-SB

Splice Block Adapter

- ◆ Splice block adapters are useful when splicing hardware in pedestals, vaults and lockboxes
- ◆ Wide bandwidth for use in broadband systems
- ◆ Standard pin length accommodates all amplifier and multitap mating requirements
- ◆ High return loss for excellent digital signal performance
- ◆ Superior power capability provides a minimum of 20 Amps current capacity on all connectors and adapters
- ◆ O-ring sealed for maximum environmental protection, eliminating water migration

Bandwidth	DC~1 GHz
Insertion Loss	<0.3 dB
Impedance	75Ω
Return Loss	30 dB
Power Capacity	>20A
Connector Type	5/8 (KS)

TSHC-H-FAC

Housing to F Adapter

- ◆ Housing to F adapters are ideally suited for use when adapting KS entry ports for use with F type connections and cable
- ◆ Wide bandwidth for use in broadband systems
- ◆ Standard pin length accommodates all amplifier and multitap mating requirements
- ◆ High return loss for excellent digital signal performance
- ◆ Superior power capability provides a minimum of 20 Amps current capacity on all connectors and adapters
- ◆ O-ring sealed for maximum environmental protection, eliminating water migration

Bandwidth	DC~1 GHz
Insertion Loss	<0.3 dB
Impedance	75Ω
Return Loss	30 dB
Power Capacity	>20A
Connector Type	5/8 (KS)

TSHC-PT

Port Terminator

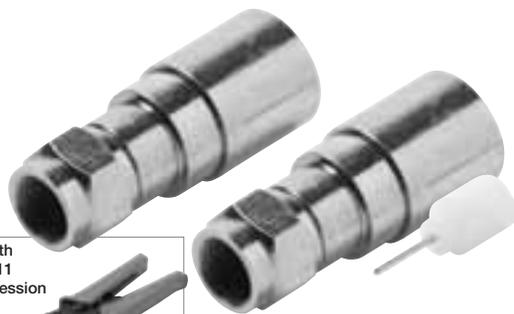

- ◆ Port terminators provide a 75-ohm match to unused KS entry ports
- ◆ Wide bandwidth for use in broadband systems
- ◆ Standard pin length accommodates all amplifier and multitap mating requirements
- ◆ High return loss for excellent digital signal performance
- ◆ Superior power capability provides a minimum of 20 Amps current capacity on all connectors and adapters
- ◆ O-ring sealed for maximum environmental protection, eliminating water migration

Bandwidth	DC~1 GHz
Insertion Loss	<0.3 dB
Impedance	75Ω
Return Loss	30 dB
Power Capacity	>20A
Connector Type	5/8 (KS)

F11-001

F Compression Connector

Use with PFC-011 Compression Tool, p. E-7

- ◆ RG11 to F-type compression connector provides premium cable to adapter interface
- ◆ Single-piece design simplifies installation and reduces assembly time
- ◆ Environmentally sealed protection prevents water migration
- ◆ Internal O-Ring and UV stabilized external ring prevent water migration through the connector collar
- ◆ Unique ridge-patterned internal sleeve presses connector securely against cable jacket, providing positive mechanical restraint
- ◆ Brass construction with cadmium plating for maximum corrosion resistance
- ◆ High return loss and low insertion loss provide unsurpassed performance
- ◆ Internal radial compression ensures high RFI shielding performance
- ◆ Standard cable preparation allows use with Pico Macom's and most other manufacturers' tools

Plating	2mm-thick Nickel
Impedance	75Ω
Return Loss	-30 dB
Insertion Loss	0.1 dB
RFI Shielding	-96 dB
Compression Tool Suggestion	PFC-011

F56-001 Series

F Compression Connectors

Use with PFC-001 or PFC-002 Compression Tool, p. E-7

- ◆ RG6 and RG59 to F-type compression connector provide the highest quality and consistency
- ◆ Single-piece design simplifies installation and reduces assembly time
- ◆ Environmentally sealed protection prevents water migration
- ◆ Internal O-Ring and UV stabilized external ring prevent water migration through the connector collar
- ◆ Unique ridge-patterned internal sleeve presses connector securely against cable jacket providing positive mechanical restraint
- ◆ Brass construction with nickel or cadmium plating for maximum corrosion resistance
- ◆ 70-lbs retention pull-out strength exceeds SCTE cable retention standard IPS-SP-405
- ◆ High return loss and low insertion loss provides unsurpassed performance

Plating	2mm-thick Nickel
Impedance	75Ω
Return Loss	-30 dB
Insertion Loss	0.1 dB
RFI Shielding	-96 dB
Compression Tool Suggestions	PFC-002, PFC-001
Prep Tool Suggestions	CS-596, C2-200, CS-202

Ordering Information

- F56Q-001** F connector for quad shield RG6 cable
- F56-001** F connector for standard RG6 cable
- F59-001** F connector for standard RG59 cable

B56 / R56 Series

BNC/RCA Connectors

Use with PFC-002 Compression Tool, p. E-7

- ◆ Ideal interface to adapt RG59 and RG6 cable to BNC and RCA connections
- ◆ Single-piece design simplifies installation and reduces assembly time
- ◆ Sealed cable-to-connector interface protection
- ◆ Unique ridge-patterned internal sleeve presses connector securely against cable jacket, providing positive mechanical restraint
- ◆ Brass construction with 24k gold plating for maximum corrosion resistance
- ◆ High return loss and low insertion loss provide unsurpassed performance
- ◆ Internal radial compression ensures high RFI shielding performance
- ◆ Spring tension BNC provides solid interface connection and reliable performance

Plating	24k gold
Impedance	50Ω
Return Loss	-30 dB
Insertion Loss	0.2 dB
RFI Shielding	-70 dB
Compression Tool Suggestion	PFC-002
Prep Tool Suggestions	CS-596, C2-200, CS-202

Ordering Information

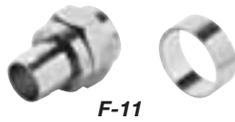

- B56-001** BNC connector for standard RG6 cable
- B59-001** BNC connector for standard RG59 cable
- R56-001** RCA connector for standard RG6 cable
- R59-001** RCA connector for standard RG59 cable

F11 Series

Coaxial Crimp Connectors

Use with HX-009 Crimp Tool, p. E-6

F-11

- ◆ Designed to interface RG11 cable to F connections
- ◆ One piece body design ensures high RF shielding performance
- ◆ Excellent return-loss provides great performance in digital environments
- ◆ Industry standard design provides compatibility with Pico Macom Hex crimp tools
- ◆ High-grade brass construction and corrosive resistant plating provides years of reliability
- ◆ Precision machined 3/8" 32UNEF threads ensure maximum interface connectivity

Bandwidth	DC~2.5 GHz
Material	Brass
Holding Force	80 lbs
Crimp Tool Required	HX-009

Ordering Information

F-11P/10.8	Tin plated RG11 Plenum connector w/ detached pin
F-11PAP	Tin plated RG11 Plenum connector w/ attached pin
F-11P	Tin plated RG11 Plenum connector w/ detached pin
F11-457T	Tin plated RG11 connector w/ attached pin
F-11	Tin plated RG11 connector w/ feed-thru pin (detached ring)

F56 Series

Coaxial Crimp Connectors

Use with HX-009, HX596, HX596Q Crimp Tools, p. E-6

F56-324D
F56-324T
F56-324G

- ◆ Designed to interface RG6 cable to F connections
- ◆ One piece body design ensures high RF shielding performance
- ◆ Excellent return-loss provides great performance in digital environments
- ◆ Industry standard design provides compatibility with Pico Macom Hex crimp tools
- ◆ High-grade brass construction and corrosive resistant plating provides years of reliability
- ◆ F-GSOL Series feature double seal protection to prevent water migration

Bandwidth	DC~3 GHz
Material	Brass
Holding Force	40 lbs
Crimp Tool Required	HX-009, HX-596, HX-596Q
Prep Tool Suggestions	CS-596, C2-200, CS-202

F56-342G	Cadmium plated RG6 Quad shield connector
F56-324G	Cadmium plated RG6 connector
F56-342T	Tin plated RG6 Quad shield connector
F56-324T	Tin plated RG6 connector
F56-324D	Nickel plated RG6 connector
F-56P	Tin plated RG6 Plenum connector

F59 Series

Coaxial Crimp Connectors

Use with HX596, HX596Q Crimp Tools, p. E-6

F-59P

- ◆ Designed to interface RG59 cable to F connections
- ◆ One-piece body design ensures high RF shielding performance
- ◆ Excellent return-loss provides great performance in digital environments
- ◆ Industry standard design provides compatibility with Pico Macom Hex crimp tools
- ◆ High-grade brass construction and corrosive resistant plating provides years of reliability
- ◆ F-GSOL Series feature double seal protection to prevent water migration

Bandwidth	DC~3 GHz
Material	Brass
Holding Force	40 lbs
Crimp Tool Required	HX-596, HX-596Q
Prep Tool Suggestions	CS-596, C2-200, CS-202

Ordering Information

F59-290GSOL	Cadmium plated weather sealed RG59 connector
F59-290G	Cadmium plated RG59 connector
F59-290T	Tin plated RG59 connector
F59-290D	Nickel plated RG59 connector
F-59P	Tin plated RG59 Plenum connector

MP-1

Motorola-Style Connector

- ◆ Used to adapt RG58 cable to Motorola male connection
- ◆ Solder center conductor and shield contact for optimum electrical bond
- ◆ Separate crimp ring provides extra bonding and support
- ◆ Nickel plating ensures excellent signal transfer

Bandwidth	DC-1 GHz
Material	Brass
Plating	Nickel
Crimp Tool Required	HX-596

BNC Series

RG59 to BNC Adapters

BNC-T59

BNC-C59

Use with HX596
Crimp Tool,
p. E-6

- ◆ Used to adapt RG59 cable to BNC male connection
- ◆ Two styles to choose from Twist-on (BNC-T59) for on the fly and Crimp-on (BNC-C59) for permanent attachment
- ◆ Attached center pin connection simplifies installation
- ◆ Separate crimp ring provides extra bonding and support
- ◆ Nickel plating ensures excellent signal transfer

Bandwidth	DC-1 GHz
Material	Brass
Plating	Nickel
Crimp Tool Required	HX-596

Ordering Information

BNC-T59	Twist-on RG59 to BNC adapter
BNC-C59	Crimp-on RG59 to BNC adapter

RCA-59

RG59 to RCA Adapter

Use with HX596
Crimp Tool,
p. E-6

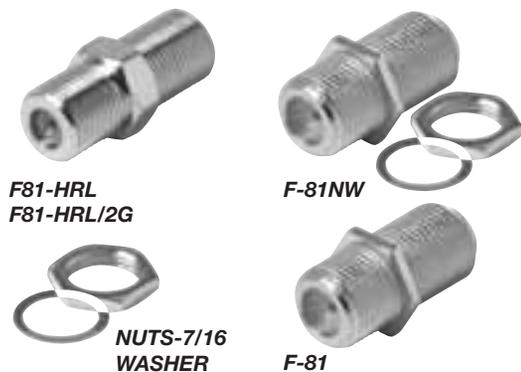

- ◆ Used to adapt RG59 cable to RCA male connection
- ◆ Solder center conductor contact for optimum electrical bond
- ◆ Separate crimp ring provides extra bonding and support
- ◆ Nickel plating ensures excellent signal transfer

Bandwidth	DC-1 GHz
Material	Brass
Plating	Nickel
Crimp Tool Required	HX-596

F-81 Series

F-81 Barrel Splice Connectors

- ◆ Three versions available to meet every bandwidth requirement
- ◆ Ultra High Return Loss F-81HRL for superb performance to 3 GHz
- ◆ High Return Loss F-81HRL2G for performance to 2.2 GHz
- ◆ Standard F-81 for performance to 1 GHz
- ◆ Round seizing pins (HRL versions) maximize center conductor surface contact
- ◆ Precision machined threads with flat-ended ports maximizes contact
- ◆ Low insertion loss provides unsurpassed performance
- ◆ High 8-Ampere DC continuous current handling capacity

	F-81 HRL	F81-HRL/2G	F-81
Bandwidth	DC~3 GHz	DC~2.2 GHz	DC~1 GHz
Insertion Loss	0.2 dB	0.2 dB	0.5 dB
Return Loss	30 dB	30 dB	20 dB
Impedance:	75Ω		
Material:	Brass		
Plating:	Nickel		

Ordering Information

F-81HRL	3 GHz Female splice
F-81HRL/2G	2.2 GHz Female splice
F-81NW	1 GHz Female splice with nut/washer
F-81	1 GHz Female splice
NUTS	1/2-inch nut only
NUTS-7/16	7/16-inch nut only
WASHER	Washer only

F-90 Series

Right Angle Adapters

- ◆ Two versions available to meet every bandwidth requirement
- ◆ Ultra High Return Loss F90-HRL for superb performance to 3 GHz
- ◆ Standard F-90 for performance to 1 GHz
- ◆ Round seizing pin (HRL version) maximize center conductor surface contact
- ◆ Precision machined threads provide smooth thread mating
- ◆ Low insertion loss provides unsurpassed performance
- ◆ High 8-Ampere DC continuous current handling capacity

	F90-HRL	F-90
Bandwidth	DC~2.2 GHz	DC~1 GHz
Insertion Loss	0.2 dB	0.5 dB
Return Loss	30 dB	20 dB
Impedance:	75Ω	
Material:	Brass	
Plating:	Nickel	

Ordering Information

F90-HRL	3 GHz High Return Loss 90 Degree adapter
F-90	1 GHz 90 Degree adapter
NUTS	1/2-inch nut only
NUTS-7/16	7/16-inch nut only
WASHER	Washer only

F-71

Male to Male Adapter

- ◆ Performance to 1 GHz for use in broadband distribution systems
- ◆ High return loss performance to 1 GHz
- ◆ Precision machined threads provide smooth thread mating
- ◆ Low insertion loss provides unsurpassed performance
- ◆ Nickel plated brass construction for excellent signal transfer
- ◆ High 8-Ampere DC continuous current handling capacity

Bandwidth	DC~1 GHz
Insertion Loss	0.5 dB
Return Loss	20 dB
Impedance	75Ω
Material	Brass
Plating	Nickel

FF-R

F-Female to RCA-Male Adapter

- ◆ Useful in converting F-Type jumpers for RCA type connections
- ◆ Return loss performance ideal for video and audio frequencies
- ◆ High retention center conductor seizing mechanism
- ◆ Precision machined threads provide smooth connector thread mating
- ◆ Low insertion loss provides excellent performance

Bandwidth	DC~50 MHz
Insertion Loss	0.5 dB
Return Loss	>-10 dB
Impedance	50Ω
Material	Brass
Plating	Nickel

RCA-F

RCA-Female to F-Male Adapter

- ◆ Useful in converting Female F equipment jacks to an RCA Female connection
- ◆ Return loss performance ideal for video and audio frequencies
- ◆ High retention center conductor seizing mechanism
- ◆ Precision machined threads provide smooth connector thread mating
- ◆ Low insertion loss provides excellent performance

Bandwidth	DC~50 MHz
Insertion Loss	0.5 dB
Return Loss	>-10 dB
Impedance	50Ω
Material	Brass
Plating	Nickel

BFA

BNC Male to F-Female Adapter

- ◆ Useful in converting F-Type jumpers for BNC type connections
- ◆ Return loss performance ideal for video and audio frequencies
- ◆ High retention center conductor seizing mechanism
- ◆ Precision machined threads provide smooth connector thread mating
- ◆ Low insertion loss provides excellent performance

Bandwidth	DC~50 MHz
Insertion Loss	0.5 dB
Return Loss	>-15 dB
Impedance	50Ω
Material	Brass
Plating	Nickel

PF-59

Push-on Male to Female F Adapter

- ◆ Useful as a quick release connection for test equipment
- ◆ High return loss performance ideal for digital and analog signals
- ◆ High retention center conductor seizing mechanism
- ◆ Precision machined threads provide smooth connector thread mating
- ◆ Low insertion loss provides excellent performance

Bandwidth	DC~1 GHz
Insertion Loss	0.5 dB
Return Loss	20 dB
Impedance	75Ω
Material	Brass
Plating	Nickel

F-59T Series

F-port Terminators

- ◆ Used to terminate unused ports reducing reflections
- ◆ Versions available to meet every requirement
- ◆ Precision high return loss version (F-59T-HRL) ensures the most consistent impedance match possible
- ◆ Prevents signal ingress and egress
- ◆ Reduces water migration into open port

Bandwidth	DC~1 GHz
Insertion Loss	0.5 dB
Return Loss (F59T-HRL)	30 dB
Return Loss (F-59T)	15 dB
Impedance	75Ω
Material	Brass
Plating	Nickel

Ordering Information

F59T-HRL	High Return Loss terminator
F-59T	F-port terminator

SGL Series

F-port Locking Terminators

Use with SGT-01 Port lock application/removal tool, p. E-9

- ◆ Used to block unauthorized connection to multitaps and splitters
- ◆ Used to terminate (SGLR-01) unused multitap ports reducing reflections
- ◆ Prevents signal ingress and egress
- ◆ Reduces water migration into open port
- ◆ Port locks and tool compatible with Gilbert/Corning-style CATV security devices

Bandwidth	DC~1 GHz
Return Loss (F-59T)	15 dB
Impedance	75Ω
Material	Brass
Plating	Nickel

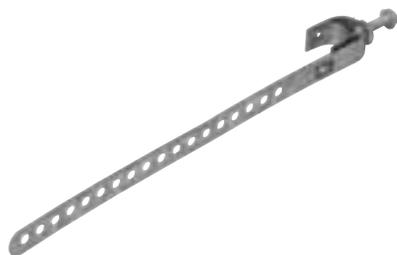

Ordering Information

SGL-01	F-port connector lock
SGLR-01	F-port connector lock w/ Resistor

A-280 Series

Hook Ground Straps

- ◆ Adjustable Easy-Install Grounding Straps
- ◆ Used in grounding of CATV, Satellite or Telephony Service Drops
- ◆ Electrically bonds AWG10-14 ground wire to water pipes and power service masts to provide a low-resistance ground connection
- ◆ Adjustable Tension Adjuster for Secure Attachment
- ◆ Pure Copper or G90 galvanized steel coating meets salt test ASTM-B117

Ordering Information

- A-280** 8" Galvanized-Steel Strap for 1/2" - 2" Diameter Pipe
- A-283** 10" Galvanized-Steel Strap for 1/2" - 2-1/2" Diameter Pipe
- A-286** 8" Copper Strap for 1/2" - 2" Diameter Pipe
- A-288** 10" Copper Strap for 1/2" - 2-1/2" Diameter Pipe

A-24 Series

Belt Ground Straps

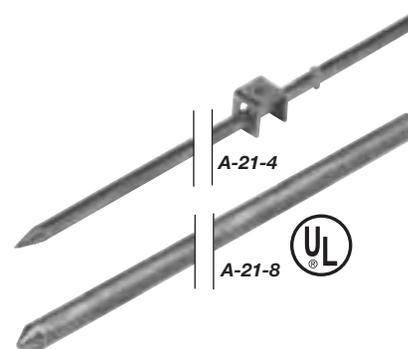

- ◆ Adjustable Easy-Install Pure Copper Grounding Straps
- ◆ Used in grounding of CATV, Satellite or Telephony Service Drops
- ◆ Electrically bonds AWG10-14 ground wire to water pipes and power service masts to provide a low-resistance ground connection
- ◆ Adjustable Tension Adjuster for Secure Attachment

Ordering Information

- A-24-6** 6" Copper Strap for 1/2" - 2" Diameter Pipe
- A-24-12** 12" Copper Strap for 1/2" - 3" Diameter Pipe

A-21 Series

Grounding Rods

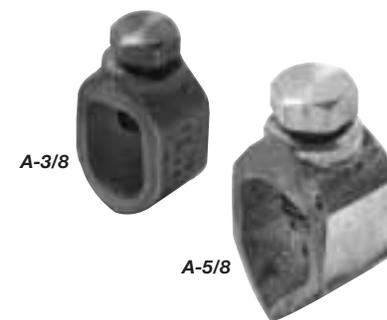

- ◆ Copper-Bonded Steel Ground Rods
- ◆ High Strength Carbon Steel
- ◆ Copper coating provides optimum electrical ground connection
- ◆ Cold Drawn Steel for Increased Strength
- ◆ Conical Point eases soil penetration

Ordering Information

- A-21-4** 4' Ground Rod 3/8" Diameter with Hex-Bolt Ground Clamp
- A-21-8** 8' Ground Rod 5/8" Diameter

A-Series

Brass Ground Clamps

- ◆ Acorn-type Brass Ground Rod Clamps
- ◆ Pressure Bonds AWG10-14 Ground Wire to 4' and 8' Ground Rods
- ◆ Corrosion-Resistant Cast Brass

Ordering Information

- A-3/8** 3/8" Ground Clamp
- A-5/8** 5/8" Ground Clamp

A-1

O-Span Clamp

- ◆ Provides service drop attachment point at CATV & Telco strand
- ◆ High-Strength Machined Aluminum Jaw Clamp
- ◆ Anti-Slip Twist Bolt Design
- ◆ Ideal for Mid-Span Applications
- ◆ Used with all common strand sizes
- ◆ 3/8" Corrosion Resistive Galvanized Steel Bolt

A-8A

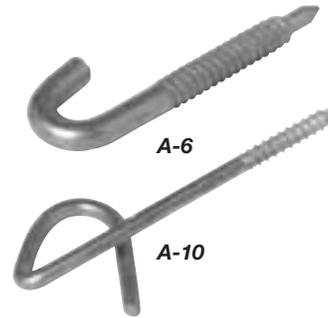

Brass Bonding Clamp

- ◆ Electrically bonds CATV and Telco Strand to Ground Wire
- ◆ Tin Plated Die-Cast Brass Clamp
- ◆ Used with all common strand sizes
- ◆ 5/16" x 1" Copper Plated Brass Bolt

A-6 / A-10

Messenger Hooks

- ◆ Suitable for tying off support messenger of RG6 and RG11 messengered cable
- ◆ 3-3/4" P and J type Drive Hooks
- ◆ A-6 Provides CATV service drop attachment point on utility pole
- ◆ A-10 Provides convenient point to attach CATV messenger cable at house structure
- ◆ Threaded Conical Shank suitable for installation in Wood or Masonry
- ◆ Corrosion Resistive Galvanized High-Strength Steel (A-6)
- ◆ Corrosion Resistive Nickel-Bonded Steel (A-10)

Ordering Information

- | | |
|-------------|--------------|
| A-6 | J-Drive Hook |
| A-10 | P-Drive Hook |

A-22

Tap Stand-Off Bracket

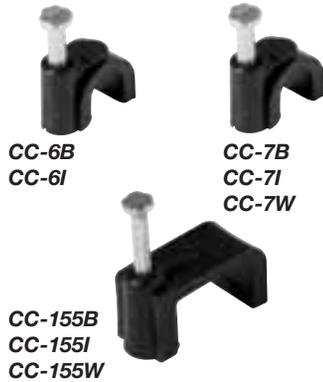

- ◆ Provides distance between CATV line equipment and transmission cables
- ◆ Ideally suited for use with Pico Macom's TSHP line of Hardline Passive equipment
- ◆ 12" Aluminum Tap Stand-Off Bracket
- ◆ Width 1" and Thickness 0.12" provides solid mechanical support
- ◆ Corrosion Resistive Galvanized Steel Bolt

CC Series

Cable Clips

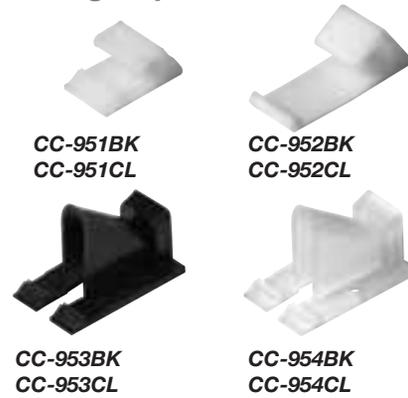

- ◆ Nail-in Cable Fasteners for RG59 and RG6 Coaxial Cables
- ◆ High Impact Plastic Body
- ◆ 1-inch Pre-Installed High Impact Carbon-Steel Nails
- ◆ Firm attachment of service drop cable to wood, plaster, mortar, or concrete block
- ◆ Available in black or ivory to closely match installation surface

Ordering Information

CC-6B	6mm Black RG59 Cable Clip
CC-6I	6mm Ivory RG59 Cable Clip
CC-7B	7mm Black RG6 Cable Clip
CC-7I	7mm Ivory RG6 Cable Clip
CC-7W	7mm White RG6 Cable Clip
CC-155B	14.3mm Black RG6-Dual Cable Clip
CC-155I	14.3mm Ivory RG6-Dual Cable Clip
CC-155W	14.3mm White RG6-Dual Cable Clip

CC-950 Series

Siding Clips

- ◆ Clip-On RG59 or RG6 Coaxial-Cable Fasteners for Vinyl, Aluminum, or Steel Siding
- ◆ UV Resistive Nylon
- ◆ Simple clip-on tool-less installation to firmly attach service drop cable to horizontal or vertical siding
- ◆ Available in black or natural-clear to closely match installation surface

Ordering Information

CC-951BK	Horizontal Black Aluminum/Steel Siding Clip
CC-951CL	Horizontal Natural-Clear Aluminum/Steel Siding Clip
CC-952BK	Horizontal Black Vinyl Siding Clip
CC-952CL	Horizontal Natural-Clear Vinyl Siding Clip
CC-953BK	Vertical Black Aluminum/Steel Siding Clip
CC-953CL	Vertical Natural-Clear Aluminum/Steel Siding Clip
CC-954BK	Vertical Black Vinyl Siding Clip
CC-954CL	Vertical Natural-Clear Vinyl Siding Clip

CC-500 Series

Cable Clamps

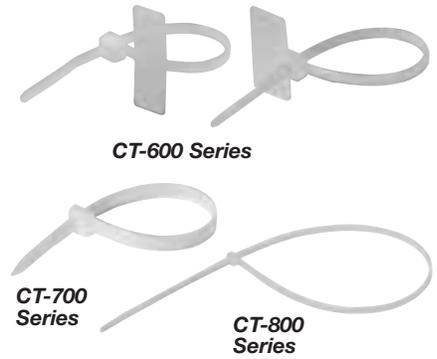

- ◆ Wide loop Cable Clamps
- ◆ Flexible cradling of cable prevents deformation
- ◆ Clear High impact UV Resistant Virgin 6/6 Nylon UL94V2 Self Extinguishing
- ◆ Firm attachment of service drop cable to wood, plaster, mortar, concrete block, or any surface

Ordering Information

CC-505CL	1/4" Cable Clamp – 3/8" Wide
CC-510CL	3/8" Cable Clamp – 1/2" Wide
CC-515CL	1/2" Cable Clamp – 1/2" Wide

CT Series

Self-Locking Tie-Wraps

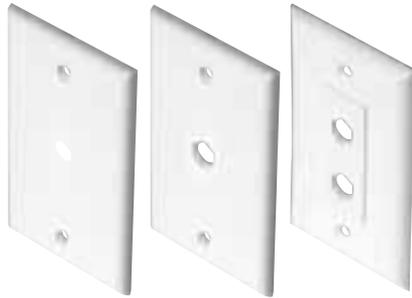

- ◆ Self-Locking Tie-Wraps
- ◆ Bundles cabling to provide neat finished installation
- ◆ Bent Finger Grip Tip for Effortless Threading
- ◆ UV Resistant Clear or Black Virgin Nylon 6/6 UL94V2 Self Extinguishing

Ordering Information

CT-604CL	3.9" Clear 18-lbs Light-Duty Marker Tie
CT-605CL	4.3" Clear 18-lbs Light-Duty Marker Tie
CT-708CL	8" Clear 120-lbs Heavy-Duty Tie
CT-712CL	12" Clear 120-lbs Heavy-Duty Tie
CT-715CL	15" Clear 120-lbs Heavy-Duty Tie
CT-804BK	4" Black 18-lbs Light-Duty Tie
CT-804CL	4" Clear 18-lbs Light-Duty Tie
CT-806BK	6" Black 18-lbs Light-Duty Tie
CT-806CL	6" Clear 18-lbs Light-Duty Tie
CT-808BK	8" Black 18-lbs Light-Duty Tie
CT-808CL	8" Clear 18-lbs Light-Duty Tie
CT-812BK	12" Black 40-lbs Medium-Duty Tie
CT-812CL	12" Clear 40-lbs Medium-Duty Tie
CT-815BK	15" Black 40-lbs Medium-Duty Tie
CT-815CL	15" Clear 40-lbs Medium-Duty Tie

BPB Series

Cover and Hole Wall Plates

BPB **BPB1** **BPB3**

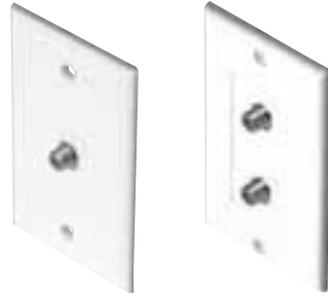

- ◆ Three configurations to choose from
- ◆ Blank Cover Wall Plate for future expansion
- ◆ Single Port Wall Plate with 3/8" -1/2" Hex Insert
- ◆ Dual Port Wall Plate with two 3/8" -1/2" Hex Inserts
- ◆ Single Gang Flush Mounting
- ◆ Color-Matched Mounting Screws
- ◆ High Impact ABS Plastic

Ordering Information

BPB-AL	Almond Blank Cover Wall-Plate
BPB-IV	Ivory Blank Cover Wall-Plate
BPB-W	White Blank Cover Wall-Plate
BP1-AL	Almond Single-Hole Wall-Plate
BP1-IV	Ivory Single-Hole Wall-Plate
BP1-W	White Single-Hole Wall-Plate
BP3-AL	Almond Dual-Hole Wall-Plate
BP3-IV	Ivory Dual-Hole Wall-Plate
BP3-W	White Dual-Hole Wall-Plate

WP Series

F81 Wall Plates

WP-81 **WP-81D**

- ◆ Dual and Single port configurations for optimum flexibility
- ◆ Two versions barrel options available to meet any bandwidth requirement
- ◆ High Return Loss F-81HRL2G for performance to 2.2 GHz
- ◆ Standard F-81 for performance to 1 GHz
- ◆ Low insertion loss provides unsurpassed performance
- ◆ Single Gang Flush Mounting
- ◆ Color-Matched Mounting Screws
- ◆ High Impact ABS Plastic

Ordering Information

WP-81HRLIV	Ivory Single F81HRL 2.2 GHz Wall-Plate
WP-81HRLW	White Single F81HRL 2.2 GHz Wall-Plate
WP-81HRLSS	Stainless Steel Single F81HRL 2.2 GHz Wall-Plate
WP-81IV	Ivory Single F81 1 GHz Wall-Plate
WP-81W	White Single F81 1 GHz Wall-Plate
WP-81SS	Stainless Steel Single F81 1 GHz Wall-Plate
WP-81HRLDIV	Ivory Dual F81HRL 2 GHz Wall-Plate
WP-81HRLDW	White Dual F81HRL 2 GHz Wall-Plate
WP-81DIV	Ivory Dual F81 Wall-Plate
WP-81DW	White Dual F81 Wall-Plate

FTB Series

Feed-Through Bushings

FTB-59 **FTB-56** **FTB-56D**

FTB-56K **FTB-56DK**

- ◆ Feed-Through Cable Bushings for RG59 and RG6 suitable for Single and Dual Cables
- ◆ Beveled-Fin Design ensures Firm Fit
- ◆ Seals wall openings to prevent water migration
- ◆ Secures and protects cable through wall entry
- ◆ Provides neat cable installations sealing roughly drilled holes
- ◆ Durable UV-Stabilized Impact-Resistant High-Density Polyethylene Construction

Ordering Information

FTB-59-B	RG59-Single Black Cable Bushing
FTB-56-B	RG6-Single Black Cable Bushing
FTB-56-C	RG6-Single Clear-Natural Cable Bushing
FTB-56-I	RG6-Single Ivory Cable Bushing
FTB-56D-B	RG6-Dual Black Cable Bushing
FTB-56D-C	RG6-Dual Clear-Natural Cable Bushing
FTB-56D-I	RG6-Dual Ivory Cable Bushing
FTB-56K-B	RG6-Single Black Cable Bushing with Knockout Hole
FTB-56DK-B	RG6-Dual Black Cable Bushing with Knockout Hole

WB-UV Series

Weather Boots

WB-1UV **WB-2UV**

WB-3UV

- ◆ Weatherproofing RG59 and RG6 Rubber Boots
- ◆ Provides Protection to Service Drop Connections
- ◆ Tapered Inside Diameter Trimmed to fit RG6 or larger diameter cables
- ◆ Extended Shaft Available for Compression Fittings
- ◆ UV Resistant Black Rubber

Ordering Information

WB-1UV	Ribbed Weather Boot
WB-2UV	Long Weather Boot
WB-3UV	Short Weather Boot
