

## Features

- Eliminates gaps between the wall and faceplate
- Highly visible yellow material helps prevent incorrect installation
- Template dimples on the bracket provide measurement markings for simplified installation
- Securing pins lock the plate into the drywall
- Convenient removable tether assists with positioning
- cULus® Pending

# Within Wall Mounting Plate

## MP1WWM

The MP1WWM Within Wall Mounting Plate, part of the CADDY® line of fasteners from ERICO®, provides a revolutionary new option for installing low-voltage cable, phone and data lines.

Traditional installation methods often cause a variety of problems, including unsightly gaps between the faceplate and mounting plate. Or, if the mounting plate is not secure, excess movement can damage the cable or cause the faceplate to detach from the wall. To help eliminate these problems and offer an increased level of security, stability and protection for a wide variety of low-voltage cable lines, the MP1WWM is mounted inside the wall.

Brightly colored yellow markers indicate when it's correctly installed and convenient marking dimples are used to indent the drywall and identify the exact box size to cut out. After slipping the mounting plate into the hole, it can be easily pulled into position using a tether on the center of the plate.

Securing pins on either side of the plate can be pressed into the drywall to lock the plate into place and prevent it from moving. These innovative securing pins also keep the plate in place when the faceplate is attached, making a permanent installation.

Part Number	Description	Standard Packaging Quantity
MP1WWM	Within Wall Mounting Plate	100

### WARNING

ERICO products shall be installed and used only as indicated in ERICO's product instruction sheets and training materials. Instruction sheets are available at [www.erico.com](http://www.erico.com) and from your ERICO customer service representative. Improper installation, misuse, misapplication or other failure to completely follow ERICO's instructions and warnings may cause product malfunction, property damage, serious bodily injury and death.
