

Single Outlet Surge Suppressor

[MMS110]

- Single grounded outlet
- New MOV technology
- Safety shutdown technology
- High frequency capacitors
- LED indicators
- Lifetime limited warranty
- UL 1449 certified
- \$25,000 connected equipment warranty protection
- 540 Joules

3-Outlet Surge Suppressor with coax protection

[MMS130C]

- Three grounded outlets
- Lifetime limited warranty
- UL 1449 certified
- \$50,000 connected equipment warranty protection
- LED indicators
- Coax/DSS protection
- Switch shutdown technology
- High frequency capacitors
- 1080 Joules

6-Outlet Surge Suppressor "twin pack"

[MMS362P]

- Two units in one pack
- Protects against line surges and spikes
- Six grounded outlets each
- Wall mountable
- Two-year warranty
- UL 1449 certified
- 241 Joules

Para Systems, Inc. ... Home of Minuteman Power Technologies

Our comprehensive line of surge suppressors provides a wide selection of features and protection.

Para Systems, Inc., with its Minuteman® line of power protection products, is a leading provider of uninterruptible power supplies and power management software for mission-critical devices such as network equipment, computers, telecommunications systems, security systems and home theater systems. Its UPS products range from 325VA standby units to true sine wave, line-interactive, and on-line models rated up to 10kVA.

Para Systems, Inc. also has a new family of Minuteman® power distribution units (PDUs) that is compliant with the recent UL 60950-1 standards for data center and power-related equipment. For ease of accessibility, outlets are available from both the front and back of the units. Longer power cords (15-feet), installation flexibility and increased number of outlets are features offered at new aggressive pricing.

Surge Suppressors

Featuring modules with:

- **Rotating receptacles** - accommodate multiple transformer blocks
- **"Child safety" surge suppressors** - avoid shock from accidental contact with electrical power
- **Ruggedized suppressors** - ideal for harsh environments

The best connector for your transformers

10-Outlet/5-Rotating Outlet Surge Suppressor with phone line protection

[MMS7100RT]

- Rotating outlets designed for connecting multiple transformers
- Five 90° rotating grounded outlets and five fixed grounded outlets
- Phone/fax/modem protection
- Telephone cord included
- Cord management design
- Wall mountable
- Seven-foot power cord
- UL 1449 certified
- Lifetime limited warranty
- \$150,000 connected equipment warranty protection
- 2880 Joules

12-Outlet/8-Rotating Outlet Surge Suppressor with coax and phone line protection

[MMS7120RCT]

- Rotating outlets designed for connecting multiple transformers
- Eight 90° rotating grounded outlets and four fixed grounded outlets
- Phone/fax/modem/coax protection
- Telephone cord included
- Cord management design
- Wall mountable
- Nine-foot power cord
- UL 1449 certified
- Lifetime limited warranty
- \$200,000 connected equipment warranty protection
- LED indicators
- 4320 Joules

7-Outlet Surge Suppressor with "child safety" covers

[MMS370]

- Seven fixed grounded outlets
- Child safety covers
- Wall mountable
- Lifetime limited warranty
- UL 1449 certified
- \$50,000 connected equipment warranty protection
- 1080 Joules

7-Outlet Surge Suppressor with "child safety" covers and phone line protection

[MMS370T]

- Seven fixed grounded outlets
- Child safety covers
- Wall mountable
- Lifetime limited warranty
- UL 1449 certified
- Phone/fax/modem protection
- Telephone cord included
- \$75,000 connected equipment warranty protection
- 1440 Joules

6-Rotating Outlet Surge Suppressor with coax and phone line protection

[MMS760RCT]

- Six 90° rotating outlets designed for connecting multiple transformers
- Satellite/cable receiver coax protection
- Phone/fax/modem protection
- Phone cord included
- UL 1449 certified
- Lifetime limited warranty protection
- \$100,000 connected equipment warranty protection
- 2160 Joules

Ruggedized 7-Outlet Surge Suppressor

[MMS570]

- Seven fixed outlets
- Ruggedized metal case design
- Wall mountable
- Lifetime limited warranty
- UL 1449 Certified
- Safety shutdown technology
- High-frequency capacitors
- LED indicators
- \$75,000 connected equipment warranty protection
- Nine foot power cord
- Cord management design
- 1440 Joules

8-Outlet/6-Rotating Outlet Surge Suppressor

[MMS780R]

- Rotating outlets designed for connecting multiple transformers
- Six 180° rotating outlets and two fixed outlets
- Wall mountable
- Cord management design
- Seven foot power cord
- UL 1449 certified
- Lifetime limited warranty
- \$100,000 connected equipment warranty protection
- 2160 Joules
