

Double-110 Punchdown Blade

Function

- Terminate and cut pairs (2 conductors) into standard 110 jacks and panels with .150" center spacing
- Use with twisted pair data and telephone systems
- Supports Cat-3, Cat-5, Cat-5e and Cat-6 cables

Benefits

- Faster network installations
- Terminates and cuts pairs in a single stroke (using HI setting)
- Reduce hand fatigue with fewer terminations
- Reduce labor costs and make more margin on the job
- Works with any tool that accommodates twist &-lock blades

Patented

Nitty Gritty

- All cast steel construction — heat treated and hardened for reliability
- Black oxide finish
