

Rip-Tie Gecko Tape™

Low, Low Cost

Non-Adhesive, Self-Gripping Tape

Reusable at least 20-25 times

Gecko Tape can be used to bundle Fiber Optic and structured cables INSTEAD of nylon wire ties; in fact, many cable manufactures are recommending "soft-hold" hook and loop ties for use with sensitive data cables. Now **Gecko Tape** makes that switch even easier and more cost efficient.

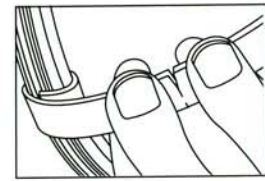

There are unlimited number of applications: Wire Harness assembly, Medical Tubing, Home Theatre, Audio equipment,

Because it is so inexpensive and weather resistant, it can also be used in Nurseries, Orchards, Vineyards, Tree Farms, Florists, and for Gardening.
