

DENON HOME WIRELESS SUBWOOFER

Deep bass for home theatre and music

The Denon Home Subwoofer easily connects via Wi-Fi to a Denon Home sound bar or any Denon Home speaker to add deep, powerful bass. Simply plug into wall power, connect, and play. It's compact enough to vanish in your room, but you won't be able to ignore the impact it'll have on your listening—and viewing.

HIGHLIGHTS

YOUR BENEFITS

Deep bass for home theater and music

Pairs with any Denon Home speaker or sound bar for a more impactful experience

8" subwoofer with a compact and stylish design

Perfectly complements the Denon Home range with the same premium look

Compact size

At just 33cm W x 37cm H x 33cm D, the Denon Home Subwoofer seamlessly blends in with your interior

Just plug the Denon Home Subwoofer into a wall outlet, then pair with your Denon Home products wirelessly through Wi-Fi—no speaker cables needed

Complete control

Within the HEOS app, you will find advanced settings to perfectly adjust the Denon Home Subwoofer to your system

Build a true surround sound experience

Connect with a Denon Home sound bar and two Denon Home speakers for a full 5.1 surround set

SINCE 1910 | DEFINING AUDIO EXCELLENCE

Pairs with any Denon Home speaker or sound bar

The Denon Home Subwoofer can be combined with any Denon Home sound bar and Denon Home speaker to add deep bass for home theatre and music.

8" subwoofer with a compact and stylish design

With the renowned Denon Home look, it's compact enough to vanish in your room, but you won't be able to ignore the impact it'll have on your listening—and viewing.

Build a true surround sound experience

With HEOS Built-in, it's easy to add a Denon Home Subwoofer wirelessly to your Denon Home sound bar and a pair of Denon Home speakers to create a true 5.1 surround sound experience.

Complete control

Within the HEOS app, you will find advanced settings for volume, low pass filter, and phase (0/180°). Plus, the Denon Home Subwoofer adapts automatically to configurations integrated in the Denon Home product line.

Easy setup

Just plug the Denon Home Subwoofer into a wall outlet, then pair with your Denon Home products wirelessly through Wi-Fi. With no cables needed to connect to other speakers, it's never been quicker.

Amazing sound built on over 110 years of innovation

As Japan's first audio electronics manufacturer with a deep legacy of firsts, Denon is the defining audio company of Japan. Founded in 1910, we enable the moments that matter through the relentless pursuit of quality, innovation, and audio performance. We innovate for a better experience.

Blends in beautifully with your interior

With the renowned Denon Home look and compact design, the Denon Home Subwoofer is ready to fit in with virtually any décor.

USB drives supported

Denon Home Subwoofer supports USB thumb drives via the built-in USB port. Music content on a USB drive can be accessed and played back by any HEOS Built-in product in the same home network.

Wireless connection

Connect to your wireless network quickly and easily. Denon Home Subwoofer supports the latest 802.11 networks (including dual band "n", "ac") for the most reliable network connection.

Wired connection

Connect to your home or office LAN system via the RJ-45 wired LAN port.
