RESIDENTIAL ACCESS CONTROL

Home Connect™ Technology

Kwikset's Home Connect Technology enables the door lock to wirelessly communicate with other devices in the home.

KWIKSET® SMARTCODE™ LOCKS WITH HOME CONNECT™ TECHNOLOGY

— A new, smarter way to connect to your home. Home Connect Technology works by allowing your front door lock to wirelessly talk to other things in your house, such as the security system, lighting, thermostat, and entertainment system. Powered by 4AA batteries, the lock offers true remote locking and unlocking features due to its motorized driven locking mechanism which is an advantage over the competition.

Innovative Security

- Motorized Locking Mechanism—enables true remote locking & unlocking
- Includes SmartKey® Re-key Technology with BumpGuard™ Protection
- Revolutionary Tapered Deadbolt Design—enables misaligned doors to lock without pulling & pushing your door shut
- Full 128-Bit Encryption Security

Easy Integration

- Replaces Existing Deadbolt with just a screwdriver
- 4 AA Batteries (*no hard wiring*)—batteries last for approximately 1 year
- Z-Wave Wireless Protocol 
- Zigbee Wireless Protocol 

SmartCode™ Contemporary Deadbolt
