

### One Enclosure, All Fields

Whether it's a new build or a retrofit, the PR1500 has you covered, easily adapting to your requirements.

### Compact, Yet Robust

The 15" internal height provides room for all your components while maintaining a small footprint.

Free-Standing  
(Brownfield)

### Perfect Fit

15" internal height and adjustable depth lid provides ample room to mount multi-play and smart home components.

### All-in-One

New build and retrofit ready for one solution to a meet range of applications.

### Install Faster

Universal mounting hole pattern works with the Primex mounting systems and a broad range of accessories for easy component installation.

### Any Application

Mounts on-wall, in-wall or freestanding for ease of installation.

### We've Got You Covered

Patent-pending self-aligning and closing Smart Lid provides clean and easy, aesthetically-pleasing installation.

### WiFi Transparent

Allows wireless signals to pass through more easily than metal enclosures so your customers stay connected and off the tech support line.

## Versatile

In-wall, on-wall, or freestanding, mount the PR1500 almost anywhere.

## Wi-Fi Transparent

15x more signal pass-through than metal alternatives.

## Perfect Fit

15" internal height provides the right balance between component capacity and enclosure footprint.

## Passive Venting

Generous venting ensures equipment remains within operating temperatures.

15" Internal Height

## Accessories

Optional freestanding mounting feet, lock kit, and keystone adapter plates provide versatility.

## Mounting Hole Pattern

Universal mounting hole pattern works with the Primex mounting systems and a broad range of accessories for easy component installation.

## Smart Starts Here

Patent-pending self-aligning and closing Smart Lid provides clean and easy, aesthetically-pleasing installation.

## In Wall-Mount

Install in new builds with a clean, low-profile finish.

## On Wall-Mount

Retrofit Brownfield applications quickly and discretely.

## Free-Standing

Easily centralize multi-play services anywhere within the premises.
