PARAMOUNT™

Audio Visual Mounting Solutions

The Paramount™ line by Peerless-AV® is the balance of form and function. To achieve the ultimate viewing experience, Paramount display mounting solutions deliver low profiles with an ease of installation and a stylish offering of durable design. Movement and versatile functionality are the hallmark attributes that make the Paramount comprehensive line of mounts an attractive solution for creating comfortable viewing angles.

This series of mounts has passed the approval process for Underwriters Laboratories (UL), promoting safe living and working environments by the application of safety science and hazard-based safety engineering. Paramount mounts have been submitted to rigorous safety testing, including tests for strength and "pull out" to a minimum of four times the stated load capacity.

Peerless-AV's mounts are also RoHS compliant, which stands for the Restriction of Hazardous Substances. Through the restriction of six hazardous materials in electrical and electronic products, Peerless-AV provides a safe environment for the consumer.

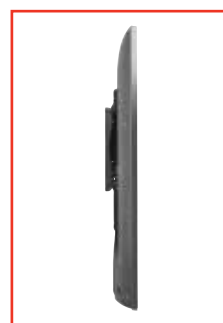

Key Features and Benefits

Open Wall Plate

Allows for total wall access and increases electrical and cable management options

Low-Profile Design

Positions display close to the wall for a sleek mounting installation

Easy-Glide™ Design

Hooks onto the wall plate for quick, simple and secure installation

Hook-and-Hang™ System

Display is easily installed by a single person

Locking Tilt

Lock the display at any angle with the ratcheting handle

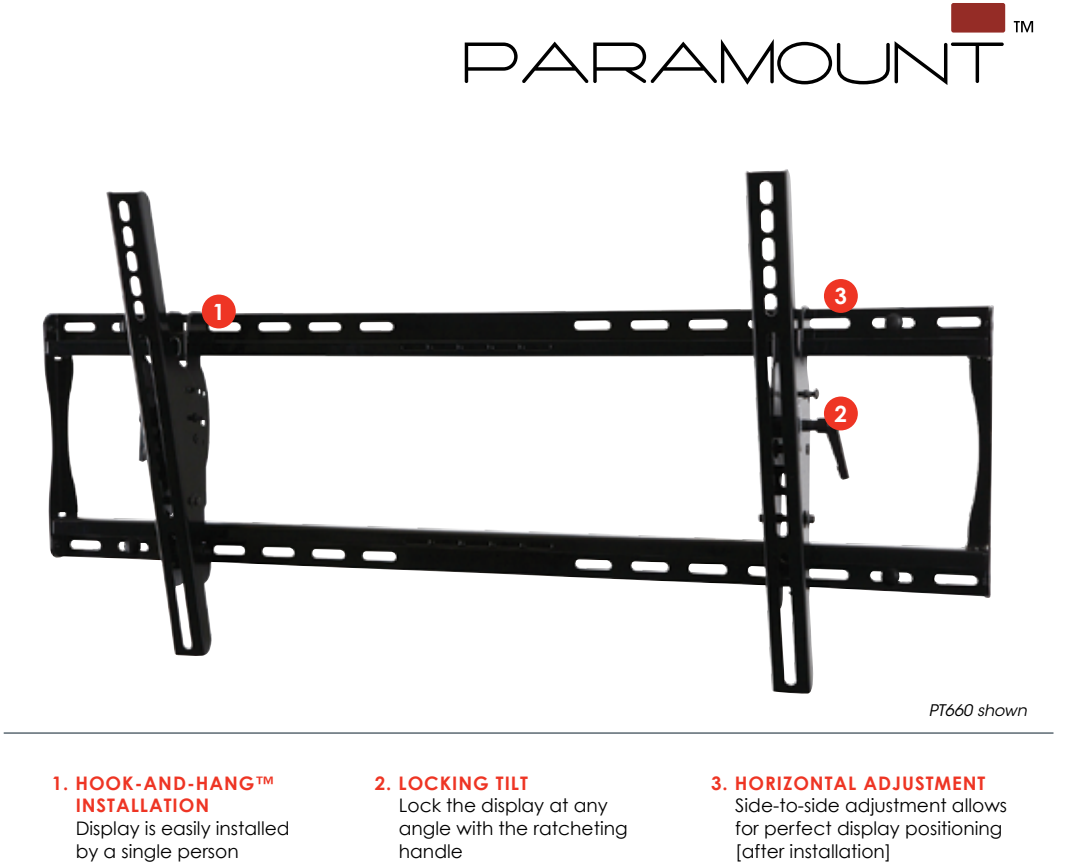

Integrated Cable Management

Protects, contains and conceals cables for a clean, professional installation

→ Flat & Tilt Wall Mounts

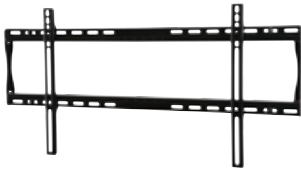

The Paramount™ series of flat and tilt wall mounts are simple and easy to install. The low-profile design positions the display close to the wall, complementing the latest displays on the market. The Hook-and-Hang™ system offers easy, one-person installation of the display, while the Easy-Glide™ adaptors hook onto the wall plate for a quick, simple, and secure installation. Achieve perfect positioning of the display with the side-to-side adjustment feature after installation. A ratcheting handle provides locking tilt capability for quick adjustments to the amount of tilt, reducing glare and optimizing the viewing angle.

- Included IncreLok™ feature offers fixed tilt lock in 5° increments
 - Design is UL listed and tested to four times stated load capacity

Pivoting & Articulating Wall Mounts

The Paramount™ series of pivot and articulating wall mounts provide versatile and multi-functional features. The arm allows the display to be fully extended or retracted from the wall for an improved viewing angle. Integrated cable management protects, contains and conceals cables for a clean installation. One-Touch™ tilt technology of ±15° vertical tilt movement, ±5° roll for post-installation leveling and ±90° pivoting means the display will be perfectly positioned for the ideal viewing angle.

PARAMOUNT™
