

Dymension CI™ DC-65 PRO SI Single Stereo In-Ceiling Speaker

Stereo-input ceiling speaker with dual pivoting tweeters and a disappearing design.

Stereo Sound for the Smallest Spaces

The DC-65 PRO SI brings stereo sound to compact spaces that can be impractical for speaker pairs, like kitchens, showers, entryways, and under eaves.

Toolless Installation

A simple, two-piece system with pivoting dog arms makes installation effortless—no tools, no hassles. Pre-construction brackets are available for all Dymension CI™ models.

IP55-Rated Weather Protection

This moisture- and dust-resistant speaker is ideal for high-humidity environments like showers, kitchens, and outdoor spaces.

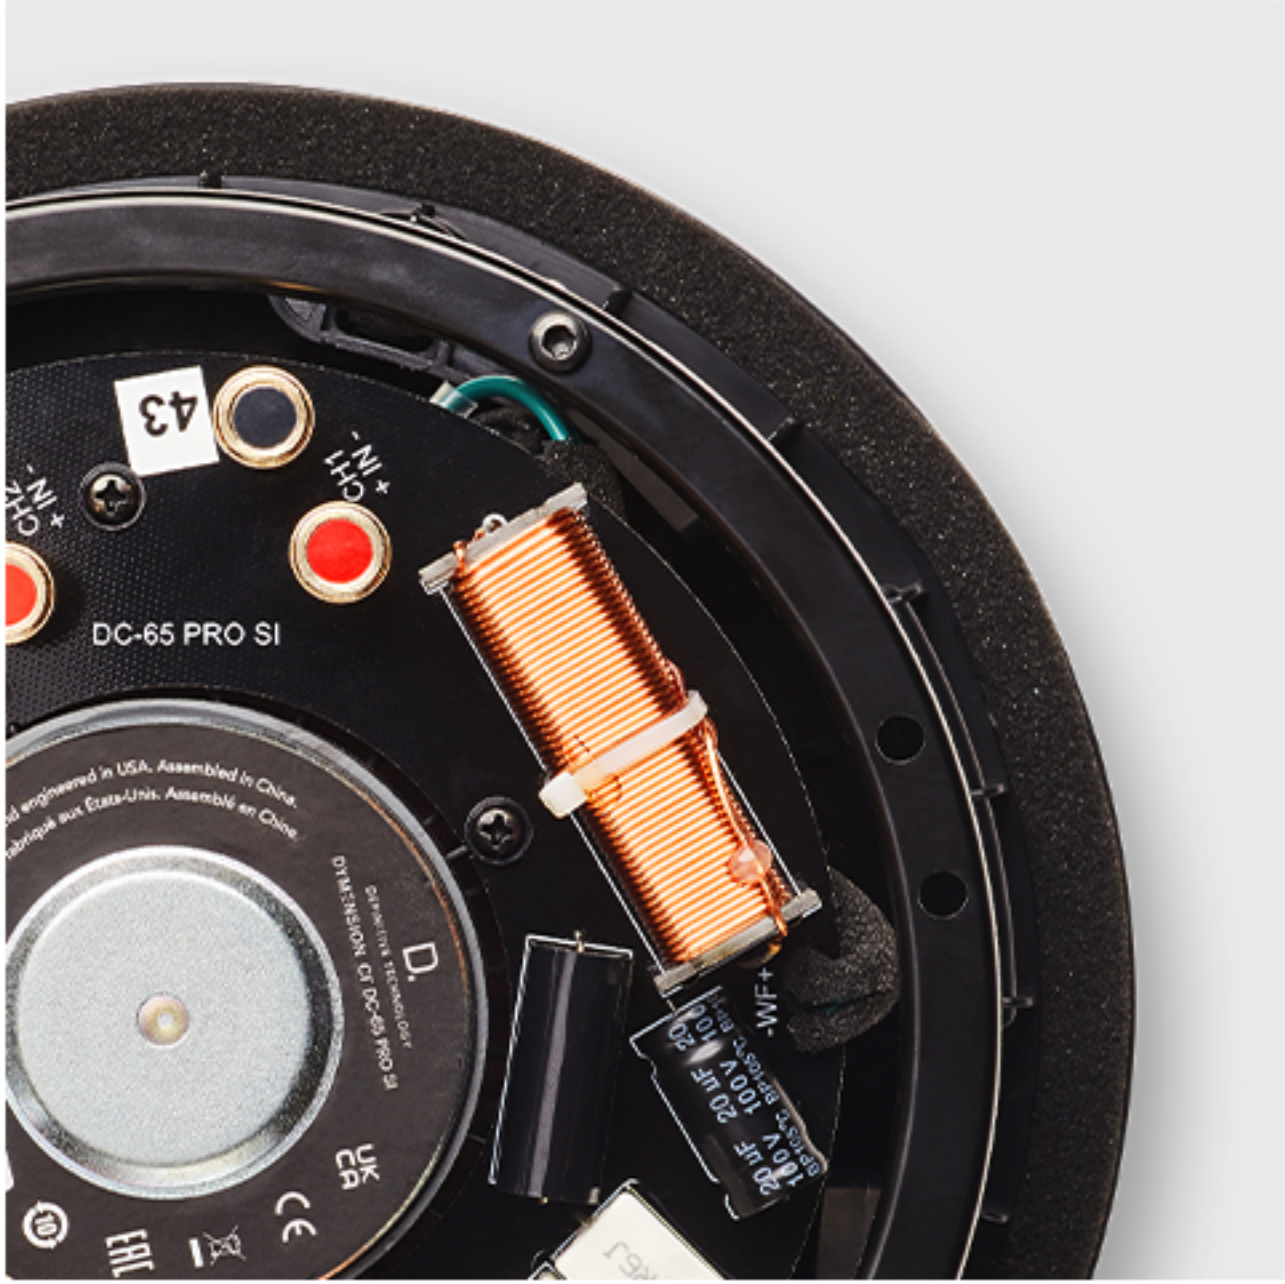

Dual-Voice Coil, Mineral-Filled Woofer

A light, stiff, mineral-filled 6.5" woofer reproduces warm, natural mids with lifelike precision. Its dual voice coil design produces stereo sound in a single speaker and gives installers greater flexibility in wiring.

Dual Pivoting Aluminum Oxide Dome Tweeters

Two 3/4" aluminum oxide dome tweeters pivot to point crisp, clear highs anywhere, for pinpoint-accurate sound with uncompromised clarity and imaging independent of speaker placement.

Refined Crossover

A high-performance crossover network optimizes driver performance for balanced voicing and smooth response.
