Mythos Three-Channel Passive Sound Bar

The Mythos® Series three-channel sound bars elevate home theater experiences indoors and out. Combining the three front channels of a home theater system in a single cabinet, these ultra-slim, on-wall speakers blend high-performance sound and designer aesthetics in a weather-protected, adjustable-width rigid aluminum enclosure. Mythos Series three-channel sound bars are available in three models.

KEY BENEFITS

Slim Profile with Luxury Finishes
Ultra-slim, wall-mount cabinet measures less than 2″ deep and features clean, modern aesthetics; and refined anodized aluminum finishes. Symmetrically adjustable extensions expand from 3.5″ (on 3C-65 and 3C-75) to 6.75″ (on the 3C-85) to perfectly match the width of 65″, 75″, or 85″-class displays for a sleek, streamlined appearance under your TV.

Acoustically Optimized Cabinet
A highly rigid, tuned aircraft-grade aluminum enclosure houses the speaker array, with each channel in its own acoustic chamber. You'll experience the truest sound, uncolored by cabinet resonances.

IP66-Rated Weather Protection
Water- and dust-resistant construction means you can enjoy stunning home theater sound outdoors.

Multi-Driver Arrays
Mythos three-channel passive sound bars feature two- and three-way driver arrays. Multiple-driver arrays improve driver performance and project robust, full-range sound over a wide area.

XTDD Drivers
Ultra-stiff, 3.5″, anodized aluminum dome woofers and midrange drivers eliminate breakup and broaden dispersion, for crisp, clear sound and a spacious, enveloping soundstage.

Aluminum Oxide Dome Tweeters
Rigid, 1″, well-damped Dymension™ Series tweeters deliver smooth extended response, crisp transients, and pin-point imaging, for cohesive, lifelike sound that draws you inside the action.

Timbre-Matched
Consistent sound across Definitive Technology models gives you the flexibility to mix and match speakers to build the ultimate system or a starter system that can expand as your needs grow.
