

FUSION FRAME SLIM

FUSION FRAME SLIM IS THE PERFECT OPTION FOR THE SAMSUNG FRAME TV

You just picked up the new and improved 2022 Samsung Frame TV 4K and are ready to combine your favorite shows with your favorite museum-quality art reproductions.

You've got the visual part taken care of, but now all you need is an audio solution that not only matches the beauty and artistic features of the Frame TV but can deliver clean show-stopping sound.

Introducing the Fusion Frame Slim, an ultra-low depth frame soundbar specially designed to pair with the 2021/2022 Samsung Frame TV. When Samsung cut the displays depth from 1.75" to a mere 1" deep, many speaker manufacturers ran for the hills.

Not NextLevel Acoustics!

FEATURES INCLUDE:

- Ultra-low 1.25" of exposed depth
- 1.75" of total air-load depth
- Hybrid on-wall / in-wall design
- Flush collar system
- Extraordinary acoustical dynamics and clarity
- Proprietary driver and crossover configuration
- Seamless framed finish to mimic the Samsung "The Frame" aesthetics
- Black acoustic mesh grille standard (additional options available)
- 55", 65", 75", 85" (Stereo) / 55", 65", 75", 85" (LCR) / Also available as a dedicated center channel upon request
- Available in Black, White, Walnut, Teak, and Beige frame finishes, as well as custom paint match
- Additional sizes available upon request

CHOOSE YOUR FINISH

Choose from Black, White, Walnut, Teak, or Beige frame color options, as well as custom paint match. Color matches are based upon the five core frame colors and do not include any wood graining. In addition, color match shades may look different depending upon your lighting.
